

E-waste recycling expands

Carmel-Marina Waste Management has announced it's expanding its free drop-offs of electronic waste to Mondays through Saturdays at its Madison Lane Transfer Station in Salinas.

Teaming with Fresno-based Electronic Recyclers Inc., the Transfer Station program has resulted in the recycling of more than 125 tons of electronic waste in the past year.

The Madison Lane Transfer Station of Carmel-Marina Waste Management has been meeting the trash disposal needs of residents and businesses in the Salinas area since 1981.

Information: 754-2500.
