Electronic collection event held in Fortuna

11/17/2007

The city of Fortuna held an electronic collection event on Nov. 3 in Rohner Park. More than 1,000 electronic items were collected, and all materials were shipped to Electronic Recyclers in Fresno

for appropriate dismantling and recycling.

The city of Fortuna would like to thank the following parties for pallets and/or assistance with the electronic recycling event: the California Conservation Corps crew, C. Crane, Eel River Hydroponics, Forbusco, Fortuna Feed, Parks Department staff members and two community service volunteers.

Community residents can still recycle electronics seven days a week at one of multiple locations. For the nearest location, see the Humboldt County Waste Reduction and Recycling Guide in the AT&T phone book.
